

The feeling is always inexplicably cool as the month approaches, largely because I get to talk to you. I'm quite sure February treated you well. Being alive and in good health is a gracious gift that we often take for granted. But I assure you, these are among the first blessings we receive from above.

## A COMMUNITY WHERE LOVE IS KING

As we wish you a blessed and fruitful March ahead, we invite you to stay tuned for updates on our upcoming programs. In the meantime, let's spread joy by embracing the simple yet powerful act of kindness. TRY A LITTLE KINDNESS today and watch it make a difference!

In the past month, Mimi Marcos, a dedicated member of our community, has been unwell. We kindly ask that you include her in your prayers. Your support and thoughts during this challenging time mean a great deal to her and her loved ones. Let us come together to offer our collective well-wishes for her recovery and continued strength.

### GED's NUGGETS

In the pursuit of financial success, true fulfillment comes from lasting experiences, not possessions. These experiences bring joy to ourselves and others, creating a deeper sense of happiness. Financial stability often requires patience and a long-term perspective, resisting instant gratification.
